- F. iiC's Unique SELL/AVOID stock- Alerts:

[A] ABOUT INDIAN INVESTORS CLUB:

What is Indian Investors Club?

- ✓ Indian Investors Club is an 'Annual Membership' service for Indian stock-market investors of NSE and BSE.
- ✓ The 'annual member' gets best Value-Investing and Multi-bagger Stock-investing Recommendations throughout the year.
- ✓ This membership and service is **only for investors**. Both short-term, medium term, long term and longer-term.
- ✓ This service/grouping of investors is promoted by Megha Investments & Research team.
- ✓ Here, we provide investors in India with reliable and profitable view on Indian stock markets and investing as well as stock recommendations- by way of service offering in the form of Annual Membership of iiC.

[B] FEATURES OF PRIVILEGE/PAID MEMBERSHIP:

Below are the Features & Details of Privilege Membership:

- ✓ This is an annual privilege paid membership.
- ✓ Any investor who wants to become a Privileged Member requires to pay Annual Membership Charges.
- ✓ Privilege Annual Members are given regular high-return and Multi-bagger stock investment recommendations via SMS and email.
- ✓ *Stock recommendations are for 3 months, 6 months, 12 months and more duration.*
- ✓ Stocks are recommended with Buy price, Target price and specific Holding duration and regular updates.
- ✓ Stocks recommended out of Midcap, Smallcap, Largecap, Micro cap and Penny stock segment also.
- ✓ Approximately 12 penny stocks, 20 midcap stocks, 12 smallcap stocks, and 12 largecap stocks recommended during the year.
- ✓ Strategy for investing in different stocks also given with regular recommendations (by Email, SMS and Personal Phone Call Discussion).

...Plus...

3 Bonus Features on enrollment of Privilege Membership-

1. Get free advice on 5 stocks of your choice at the outset.
2. Get additional 15 stocks limit (for free advice of stocks of your choice) for the whole year.
3. Alert for Negative Stocks- Alerts for Sell/Exit/Avoid stocks also included as Bonus feature with Privilege Membership.

[C] WHAT YOU GET?

Below is the detail of Schedule and type of service/recommendation you will get:

PRIVILEGE MEMBERSHIP SMS/Email Service Schedule:

1. 'Indian Investors Club-Weekly Investors Digest' Email Newsletters, before 9:00 pm every Saturday. Giving past week's wrap of markets and look into next week's market with mention and comments on contemporary topics relevant to investors etc.

2. 'Indian Investors Club- Weekly Investors Education' Email Newsletter, before 09:00 pm every Saturday, Giving important educational, informative and strategy type learning and lessons useful for investors to understand and implement.
3. 'Indian Investors Club- Weekly Investors Stock Recommendation' Email Newsletter, before 09:00 pm every Saturday, Giving important educational, informative and strategy type learning and lessons useful for investors to understand and implement.
4. **SMS Updates**- You will receive SMS updates *during the week* regarding news and updated relevant and important to you as an investor.
5. **SMS Updates**- before 09:00 pm every Saturday, you will receive SMS updates of Price Changes of major world index, Indian Sensex, Nifty, Gold, Silver, Crude etc.

Notes:

- ✓ You will receive SMS alert notifying you about every Email sent to you.
- ✓ Thus, usually there will be 12, penny stocks, 20 midcap stocks, 12 small cap stocks, and 12 largecap stocks recommendations that sums up to 56 stock recommendations during one year. However this number may change up or down depending upon market condition.
- ✓ The 3 monthly and 6 monthly holding recommendations will be in addition to the above recommendations. As most of the 56 or less recommendations will be for above 1 year holding period.
- ✓ There will be usually one 3 monthly position every week/fortnight.
- ✓ Also the 3 monthly holding recommendations will be given with stop loss price.
- ✓ The email updates, you may get all of them, in one single email to you as well or all in separate email, as per our convenience.
- ✓ Alerts of Negative/Avoid/Sell stocks will be given on as and when basis.

[D] FEE STRUCTURE:

1. INSTANT 'PRIVILEGE/PAID MEMBERSHIP' FEE STRUCTURE:

YEARS	Fee in Rs.
-------	------------

1 years membership	Rs.7000 Only
2 years membership	Rs.11,000 Only
Life-time membership	Rs.21,000 Only

The supposedly high membership fee is in line with our goal to limit the membership and not invite flood of subscribers. The main reason is our easiness, and better quality of delivery of service in terms of personalizes attention. Another main reason is because given the reputation, and existing reach of ours; a lot of investors would want to become members, so there will be problems when we will shoot out stock recommendations. What will happen is that, many investors will try to jump and buy the stock and the price will shoot, thus depriving many investors of buying the stock or buying at higher price than our recommendation and in the end getting confused and resorting to us. So, the fee structure has been set while keeping in mind such practical issue.

In fact, as our research resources, and sectoral, stock wise coverage increases, we will increase the membership fee along with the gradual increase in number of members for the very stated reasons.

2. MEMBER REFERRAL DISCOUNT PROGRAM-

Introduce free and privilege members and get benefits. Below are the details,

Type of members you introduce	No of Members you introduced	You get free
Free members	At every 20 members	3 months of privilege membership
Privilege members*	At every 1 member	3 months of privileges membership
Privilege members*	At every 3 member	6 months of privilege membership

Note- To claim the benefits of referral program, the members you claim to have introduced must convey to us that they come through your recommendation.

*You yourself also need to be a privilege member.

3. GROUP MEMBERSHIP DISCOUNT PROGRAM-

Group membership program encourages participating in benefits of 'Indian investors club' in a group and getting discount benefits.

No. of members registering for privilege membership together	Discounted Fees per member	Discount benefit in %
2	11,200	20
6	31,500	25
10	49,000	30
15	68,250	35
20	84,000	40
More than 20	-	50

Below are the tricks for arranging group membership for yourself,

You can join hands with your work-colleagues, friends, and neighbors or even complete strangers to become a privilege member at discounted membership fee.

You can use social networking sites like facebook, twitter, orkut, Google buzz etc. to form a group or let know each other about this club and the group discount membership benefits.

You can give your group a name for identification purpose which you can convey to us for simplicity purposes.

You can register yourself with us as free member and also select the option for willingness to become member in Group Discount Program. After that whenever we find a match for your selection of discount scheme, say 2 members, 6 members and so on; then we will inform you (and others about it). You can take it or leave it as per your choice at that time. If you have selected for

willingness to become privilege member in 20 members' group discount then you will have to wait until we find 20 members with same choice as yours.

4. MEMBERSHIP RENEWAL DISCOUNT-

Get 20% discount if you renew your Privilege Membership before 1 month of expiration of your service.

[E] WHAT WE HAVE?

The Resource-fullness of Indian Investors Club-

- ✓ As a stock market investment and trading research firm, we already possess rich 7 years of experience.
- ✓ We have seen seamless daily movements and volatility, intermediate ups and downs, changes in trends, and seen full-cycle bull and bear phase. We have seen and worked in 'there's no tomorrow' type bull market euphoria and bear market extremist pessimism of 'end of the world' type.
- ✓ We have seen and forecasted some staggeringly successful and too-good-to-be-true to believe targets for several stocks. And not just stocks many times fore-told the fortunes of sectors (remember telecom, banking, realty, aviation, PSUs, MNCs)
- ✓ We already have in depth research coverage of 80% of business sectors.
- ✓ While we have an almost exhausting ready proprietary research coverage of more than 60% of listed companies. And adding at the rate of 2-4 companies every week.

Our core investment philosophy remain--

- ✓ 'Remain invested in markets'
- ✓ Keep shuffling your portfolio according to market and economy conditions
- ✓ Stay attune with value investing principles of Warren Buffet style

- ✓ Bet on multi-baggers carefully as there are not many of them neither you have unlimited capital for them
- ✓ Take benefit of present intermediate trend (flavor of the season) while sitting tight with core investing principles such as value investing, timely booking profits in such intermediate trend investment
- ✓ Adding into 'longer-term' stocks on declines
- ✓ Largely staying clear of IPOs
- ✓ Look out for good mutual fund schemes for investing in international equities, international real estate, commodities stocks, and commodities themselves.
- ✓ Bear Markets don't long last in general, but can do so in particular (sector/stock specific)
- ✓ Mid-caps are better than smallcaps, and many largecaps in growing economy such as India are in fact still Midcaps.
- ✓ Being Contrarian investors 'pains' heavily in the short-medium term, but 'pays' heavily in the long-run.
- ✓ Do not take long-term investment picks based on technical analysis (Those who see charts to give recommendations). Meaning don't take investment advice from technical analysts, take trading advice from them.
- ✓ Thrust on elements of '*Behavioural Finance*' ((the psychological aspects of individual participant and crowd in markets) while understating markets and movements.

[F] iiC's Unique SELL/AVOID stock- Alerts:

Why Stock SELL/AVOID Alerts

- ✓ As an investor we strongly believe that 'selling' is as important as buying. In other words, it is important to know which stocks 'TO BUY', but it is equally important to know which stocks 'NOT TO BUY'.
- ✓ Apart from that there are certain sectors which are/should be always a no-no for investors such as aviation, and some of pure commodity play companies' stocks.

- ✓ Also at any point of time there is a long list of stocks which are over-valued and must be avoided or sold. Unfortunately, popular tv and print media does not give alerts and sell recommendations but at all types of market condition suggests stock to buy, buy and buy only.
- ✓ Also during the rosy bull markets many IPO stocks are worth avoiding as they are the one which destroy maximum wealth of investors in short time.
- ✓ You may not own some stock, but endanger the risk to possibly get into it. So knowing that so and so stocks are in a 'negative list' or 'avoid list' makes you aware and decreases risk of capital loss.
