

## Post-Paid Plans

**Profit-sharing based trading calls are available for following options:**

- 1. Stock futures segment
- 2. Stock cash segment
- 3. Nifty futures trading
- 4. Commodity trading

**Common Features for post-paid/profit-sharing trading advice plan:**

- Profit sharing based fee of 25% is taken. For example, if the customer earns Rs.20,000 on our tips, then he will have to pay Rs.5000 as profit-sharing fee to continue next service.
- The subscriber has to pay only Rs.5,000 as advance fee, which will be set-off against first profit of Rs.20,000 earned to him by our calls. The loss if any will be deducted before calculation of our profit sharing charges.
- In nifty future the subscriber has to trade with minimum 2 big lots at one time. Mainly intraday calls will be provided in nifty future.

- In stock futures the subscriber has to trade with minimum 1-2 lots at one time. Mainly 2-5 days positional calls are provided in this scheme.
- In stock cash segment, the subscriber will have to trade/purchase at least Rs.1 lakh value of quantity. Mainly 2-5 days positional calls are provided in this scheme.
- In commodity futures/mcx/ncdex trading calls, the subscriber will have to trade at least 1 lot of any 2 commodity at one time. Mainly intraday calls will be provided in this scheme.
- Mainly sureshot calls will be provided in all plans and not regular calls, as fee for regular calls is fixed and not 25% profit sharing which is high.
