Get Assured Profit of Rs. 25,000/50,000 in

Rs.5,000/10,000 Only!

An Offer which will make you forget all other STOCK call service in the market!

It is a unique service being offered to stock traders @ *Rs 5,000- for an assured profit of Rs.25,000 in stock cash segment while Rs.50,000 fee in stock futures segment*. Which means that subscriber pays once and until and unless subscriber makes net profit of Rs.25,000/50,000, his subscription period does not expire.

FEATURES & GUIDELINES: It's Simple !

- The subscriber has to trade with the quantity specified in sms, which will be determined as per the trader's available cash margin or turn over/exposure.
- Live/positional Trading Calls for stock cash/futures segment will be provided through SMS with clear Entry Level, Stop Loss Level and Targets.
- Each Trade will be monitored and follow-up calls will be provided, if required, to modify Stop Loss, book part/ full or early profit/ loss.
- At the end of each day, profit/loss account of that particular day will be sent by SMS.
- *Subscription will continue until Subscriber makes net profit of Rs.25,000/50000. Unlike other advisors, we will NOT stop your service on completion of your duration, but for us in this service the duration is THE NET PROFIT and not the days.*
- There will be generally 1-2 call per week.
- There will be 10-15% profit in each call in stock cash segment and 5-10% profit in each call in stock futures.
- Usual holding period of each call will be from intraday to maximum one week. We will give calls/positions considering the margin exposure a normal broker gives to keep a position for one week period.
- Generally, the subscriber has to trade with minimum of shares worth 1 lac rupees and more of value in Stock Cash segment while minimum exposure of Rs.2,50,000 and more is required for Stock futures And if any subscriber wants to take up more or lesser position then he must communicate with us, so that we can send him the quantity of trade accordingly, in each sms.
- As you already know, the quantity of trade is given by us, which must be strictly adhered to by the member.

- It the NET and not Gross: We will deduct the loss to calculate your profit.
- Subscription will be over as soon as Subscriber makes Net gain of Rs.25,000/Rs.50,000.
- Thus the subscriber makes Rs.25,,000 on fee of Rs.5000, which is profit of 5 times on our fee on as low as 1 lac rupee total exposure and only 1-2 lots trading in Stock Futures trading.
- Please read our guidelines, for better trading. Also consult our executive for more guidelines for better trading.
